

Paolo Secondo Crosta

CIO & HEAD OF INNOVATION, RESEARCH AND TECHNOLOGY

Graduated in Electronic Engineering from the University of Pavia, he began his career at the Italtel Group, where he led the R&D Unit dedicated to the development of proprietary platforms and, subsequently, the Unit managing research and innovation projects at national and European levels.

In 2023, he embarked on his journey at the Exprivia Group, assuming the role of Director of the Innovation, Research, and Technology Unit, dedicated to implementing research and innovation projects in collaboration with research institutions and universities, to bridge the gap between the worlds of research and technological innovation.

In 2024, he is appointed Chief Innovation Officer (CIO) of the Exprivia Group.
