

## **THE BOARD OF DIRECTORS OF EXPRIVIA RESOLVES TO DEFER THE APPROVAL OF THE GROUP ANNUAL FINANCIAL REPORT AT 31 DECEMBER 2019 AND OF THE INTERIM REPORT AT 31 MARCH 2020**

### **UPDATE ON THE OPERATIONS IN PROGRESS FOR THE CONSOLIDATION AND RELAUNCH OF ITALTEL**

### **MANAGEMENT DATA AT 31 DECEMBER 2019 AND AT 31 MARCH 2020**

**May 18, 2020.** The Board of Directors of **Exprivia S.p.A.** - a company listed on the STAR segment of Borsa Italiana [XPR.MI] -, met today, has resolved to postpone the approval of the annual financial report at 31 December 2019 and of the Interim Report at 31 March 2020 to a new meeting.

#### **The deferral of the approval of the financial report as at 31 December 2019 and of the Interim Report as at 31 March 2020**

In this regard, it should be remembered that already on March 13 the Issuer had communicated the postponement of the approval of the annual financial report, given the situation of financial difficulties of Italtel SpA and the consequent unavailability of financial difficulties relating to the subsidiary. Subsequently, as communicated to the market, on the 31st March 2020, the Board of Directors of Italtel S.p.A. resolved to file the composition with creditors "blank" pursuant to and for the purposes of art. 161, sixth paragraph of the bankruptcy law. The Court therefore set the deadline in 120 days for the submission of the definitive application for composition with creditors or an application for approval of debt restructuring agreements, a term which then started to run from 11 May 2020, date of the cessation of the suspension of the terms ordered by the dl n. 11 of 2020 in the face of the COVID19 emergency.

In this situation - following further analyzes carried out also with the assistance of external consultants and considering all the possibilities provided by current regulations and international accounting standards, but also the limitations and constraints prescribed by the same - the Board of Directors deemed it appropriate to defer the approval of both the Annual Financial Report at 31 December 2019 and the Interim Report at 31 December 2019 of the Issuer.

The current persistent uncertainty regarding Italtel S.p.A.'s future prospects does not allow to have the necessary elements to be able to evaluate with sufficient accuracy the ability of the subsidiary to continue

operating on the basis of the going concern assumption - capacity that is conditioned by the outcome of the of the crisis path started. Consequently, it is not possible to carry out - at least with times compatible with those of the approval of the results of Exprivia SpA - the necessary assessments to be able to have financial information with the necessary characteristics in terms of relevance, faithful representation, as well as the comparability, verifiability, timeliness and comprehensibility required by the IAS-IFRS accounting standards.

In particular, the current uncertainties about the outcome of the Italtel S.p.A. recovery process led the directors of the subsidiary to postpone the preparation of the draft of the financial report for 2019 and consolidated financial report for 2019 (and before the approval of their data as at 30 September 2019) until the company can take into account and acknowledge the effects, in the approval of these financial data, of the progress of the solution path of the crisis started. Consequently, Exprivia S.p.A. is in the absence of the financial data of the subsidiary Italtel necessary to prepare and approve its consolidated financial statements as at 31 December 2019.

Precisely the in-depth analyzes carried out and the complete identification of the potentially applicable limitations led the Board of Directors to review the decision communicated to the market on 28 April last to proceed with the preparation of the Issuer's Separate Financial Report at 31 December 2019, to be submitted to the Shareholders' Meeting. However, in order to allow the most exhaustive information possible on the group's performance, the Board deemed it appropriate to authorize the disclosure of certain management data relating to Exprivia S.p.A. and the Group headed by it, attached here.

Exprivia therefore postpones the preparation of the Consolidated Financial Report of the Exprivia Group and of the separate part of the Issuer until there will be the conditions for evaluating the assumption of business continuity of Italtel S.p.A. and the latter's board of directors will be able to approve the project of its separate and consolidated financial report, being able to fully take into account and understand the effects, in the approval of these financial data, of the progress of the solution path of the crisis started.

Exprivia S.p.A. undertakes to prepare a specific communication pursuant to article 114 of the TUF - on the occasion of subsequent interim reports - aimed at providing any useful information on the financial situation of Italtel SpA, the Italtel Group and the Exprivia Group, as well as any useful update on the state and evolution of the events involving Italtel SpA, also with reference to highlighting any liability risks that may arise from these events and which may affect both the Italtel Group and the Exprivia Group.

Since there is the same context in relation to the publication of the Interim Report as at 31 March 2020, the Board of Directors has authorized the disclosure of some management data also for the first quarter of the year.

### **The effects of the situation regarding the subsidiary Italtel on the issuer**

The Board of Directors also considers it useful to repeat that in the complex affair affecting its subsidiary Italtel, although it represents a very significant part of the scope of consolidation of Exprivia SpA, as of today it cannot be deduced with certainty whether the ongoing negotiations aimed at to identify a financial transaction capable of restoring Italtel SpA's business continuity will be able to end favorably. With regard to a default hypothesis of Italtel S.p.A., Exprivia S.p.A. is exposed to the risk of potential liabilities that could emerge during the bankruptcy procedure. In this regard, however, it is represented that Exprivia S.p.A. has not provided guarantees and / or sureties in the name and on behalf of Italtel SpA, has no ongoing commercial relations with the subsidiary, has not made payments or made any commitments, on behalf of the subsidiary, neither legal nor contractual, neither implicitly nor explicitly, and not has exercised direction and coordination activities, therefore this risk appears limited and remote.

Lastly, it should be considered that the Issuer and the Exprivia Group, net of the group of companies that refer to the subsidiary Italtel S.p.A., regardless of the future of the Italtel Group, do not present any significant uncertainty that could raise doubts about their business continuity. In fact, as mentioned above, Exprivia has not provided guarantees or sureties of any kind in favor of Italtel and to date there are no significant economic interests between the two companies. Therefore, even a negative outcome of Italtel's recovery process would not raise uncertainties about Exprivia's ability to continue operating as an entity operating in a predictable future.

In compliance with the general principles of prudence, the Board of Directors deemed it appropriate to make the assessment of the items that may be influenced by the possible effects deriving from the evolution of the situation of the subsidiary even more conservative, proceeding to fully devalue the value of the investment in Italtel, as better illustrated below.

### **Update on the operations underway for the restructuring and relaunch of Italtel**

The Board of Directors of Exprivia S.p.A. informs that, in the context of contacts with potential lending banks and with other financial institutions aimed at identifying possible solutions relating to the financial position of Italtel SpA, the exclusivity granted to a primary Fund active in the debt restructuring segment, as communicated on March 31st, has been dissolved.

## Management data as at 31 December 2019

In order to be able to inform the market about the performance of the main components of the Exprivia Group, the Board of Directors has decided to authorize the release to the market a "pre-closure management" data. It is therefore stated that these data have not been approved by the Board of Directors and that, on the occasion of the approval of the annual financial report, they could undergo changes.

As already communicated on the 31st March, the IT operating sector, namely Exprivia Group net of the subsidiary Italtel, closed the year with revenues growing of 169.3 million, compared to 161.5 million in 2018 with an increase of 7.9 million equal to 4.9%. Considering margins, the year ended with an Ebitda of 18.8 million (with a positive effect from the application of the new IFRS 16 for 2.5 million) compared to 15.9 million in 2018. The net financial position it is equal to -43.9 million (-37.4 net of the effect of the new IFRS 16 compared to -45.8 at 31 December 2018).

Below is a table that summarizes the aforementioned KPIs:

Exprivia Group excluding Italtel Group. (value in thousand euros)	31.12.2019	31.12.2019 without IFRS 16	31.12.2018	Variation	Variation %	Variation without IFRS 16	Variation % without ifrs 16

Posizione Finanziaria Netta	(43.892)	(37.382)	(45.769)	1.877	4,1%	8.387	18,3%

In order to provide as much information as possible to the market, profit and loss statements and the balance sheet of the IT Operating Sector as well as the detailed schedule of the net financial position are also attached.

As can be seen from the table above and the attached tables, the result of the IT Operating Sector is affected by the total write-down of Euro 25 million relating to the investment in the subsidiary Italtel S.p.A. in addition to further lower write-downs on the carrying values of other investments. The total write-down of the investment in Italtel S.p.A. has been assumed, on a prudential basis, given the current situation of uncertainty facing the subsidiary.

Below are the debt positions of the IT Operations Sector with evidence of overdue items;

Other current payables include payables related to the items found in the Group VAT and the tax consolidation. These items are paid to the parent company on the basis of the relevant regulations approved by the respective Boards of Directors.

The main data relating to the issuer's performance at 31 December 2019 are shown below:

Exprivia SpA (amount in thousand Euro)	31.12.2019	31.12.2019 without IFRS 16	31.12.2018	Variation	Variation %	Variation without IFRS 16	Variation % without ifrs 16

Net Financial Position	(45.665)	(39.944)	(45.441)	(225)	-0,5%	5.497	12,1%

As can be seen, the results in terms of revenues show an increase of 4.9%, while EBITDA is almost unchanged, net of the impact of IFRS16. Net operating profit was impacted by the abovementioned write-down of Euro 25 million relating to the total write-down of the investment in the subsidiary Italtel S.p.A. and further

lower write-downs in other subsidiaries. The net financial position, details of which are provided in the attached schedule, shows, net of the impact of IFRS16, an improvement of Euro 5.5 million. Attached are the income statement and balance sheet formats; as can be seen, the write-down of the equity investment is absorbed by the reserves in shareholders' equity and does not affect the equity of Exprivia S.p.A. and its ability to continue its business.

The debt positions of Exprivia S.p.A. are shown below, highlighting that all payables past due, regardless of their aging, are recorded as payables due;

With regard to receivables and payables to Italtel S.p.A. and other Italtel Group companies, please refer to the table above.

The Italtel Group's figures for 2019 are shown below. These figures have been calculated on a going concern basis, while highlighting the significant uncertainties arising from the situation pursuant to Article 2447 of the Italian Codice Civile in which Italtel S.p.A. finds itself and the application for a white composition with creditors filed by the same pursuant to Art. 161 of the bankruptcy law. The TLC operating segment of the Italtel subsidiary closed 2019 with revenues of Euro 375.9 million compared to Euro 466.0 million in 2018. Ebitda is equal to Euro 15.5 million (with a positive effect from the application of the new IFRS 16 for about 5.3 million), compared to Euro 26.0 million in 2018. The net financial position is equal to -182.5 million Euro (-165.3 million net of the effect of the new IFRS 16 compared to -168.9 million at 31 December 2018).

A breakdown of the net financial position is attached. Below are the Italtel Group's debt positions with evidence of overdue amounts:

## Management Information at 31 March 2020

As is known, the first quarter of the year was affected by the Coronavirus emergency (COVID-19) and had an impact on the global economy. Since the rise of the emergency, the company has taken every useful measure to counter the spread of Coronavirus (COVID-19), with the dual objective of safeguarding the value for customers and the health of all employees. Starting from February 14th, an internal task force was created to manage the emergency, in order to guarantee the operations of all departments, all activities supporting customers, which studied and implemented immediate responses as the situation evolved. Smart-working has been adopted, from the beginning in the Northern offices, then all over the national territory, bringing today more than 90% of the company population to work from home.

Although the results of the IT operating segment, i.e. the perimeter of the Exprivia Group except the subsidiary Italtel, showed slight improvements compared to the results of the previous year. Below is a table with the main data:

Exprivia Group excluding Italtel Group (value in thousand Euro)	31.03.2020	31.03.2019	Variations	Variations %
Revenues	38.575	38.340	235	0,6%
EBITDA	3.054	2.874	181	6,3%
EBIT	1.545	1.316	229	17,4%

Exprivia Group excluding Italtel Group (value in thousand Euro)	31.03.2020	31.12.2019	Variations	Variations %
Net financial position	(52.581)	(43.892)	(8.689)	-19,8%

As can be seen, revenues remain almost constant while margins are increasing. The net financial position deteriorated as usual in the first quarter of the year. Attached are the income statement and balance sheet and the detailed net financial position.

Below is a table summarising the debt items broken down by type with the related overdue positions;
